LEE & SMITH WELL IN 3-4-7  
PROVES PRESENCE OF POOL.  
MORE WELLS TO GO DOWN  
IN NEAR FUTURE

The Lee & Smith oil well in section 3-4-7, a few miles southeast of Francis, was shot last night near midnight and indicated that it will be good for from 75 to 300 barrels a day. Many say that it is the best well in the local field.

An attempt was made to shoot the well last afternoon and many citizens of Ada went out to see the sights. The shot proved ineffective and another was put in last night. As the explosion went off, oil, gas, sand and rocks went into the air hundreds of feet. Paul Alderson and Guy Anderson were looking on when the mass of matter went into the air. Paul said he made attempts to get away, but Guy passed him with comparative ease.

This new well in the territory of the old Mascho No. 1 proves that an oil pool of considerable size is opening up. It is reported that many more wells will be sunk in the same section within a few weeks. The depth of the holes is about 1100 feet and the sand is thicker in any of the other wells, according to the reports of those familiar with the hole.

## University Girl Trying to Escape Dangerously Hurt

CHICAGO, March 18.—Miss Elizabeth Chapman, president of the freshman class of Northwestern University, who fell from a third story window of an apartment in which she had been imprisoned by sophomores, suffered a fractured spine, and is paralyzed below the waist, it became known today. Physicians could not determine whether the injury will be permanent.

At the request of Miss Chapman, no legal proceedings will be brought against the students who took part in her abduction. An investigation by university authorities disclosed the fact that another girl student had been forcibly taken from her home and imprisoned. She was released when her captors learned of the injury to Miss Chapman.

The student council met today to take action to prevent hazing.

## Texas Attorney Invades Oklahoma To Try Settlement

AUSTIN, Texas, March 18.—E. F. Smith, assistant attorney general will leave today for Oklahoma City in the interest of Texas contentions in the Judsonia Development Company phase of the Texas-Oklahoma boundary dispute. He declined to give details of his plans.

## PRISON GUARD SHOTS CONVICT AND QUELLS RIOT

MALESTER, March 17.—Sam Fields, prison guard, quelled an assault of fifty negro prisoners upon W. R. Mayfield, brick plant foreman, here today when he shot Richard Williams, leader of the negroes. The convict fell, probably fatally wounded, and his followers were cowed into instant inaction. Williams is still alive. He is serving five years on a burglary charge from Seminole County with three years to run.

## Divorce Case Filed.

## LAST "FINAL" VOTE ON TREATY SOMEDAY

WASHINGTON, March 18.—Final vote on the ratification of the Peace Treaty loomed more imminent today. While plans were not being made for a showdown before tomorrow, and perhaps not until Saturday, Senate leaders were prepared to put the document to a test immediately if all the remaining reservations were disposed of before adjournment. A night session was regarded as likely in the event it seemed possible to bring a conclusion to the famous controversy which has been in progress. The presence of William Jennings Bryan and his influence to persuade the Democrats to accept the best compromise obtainable on the reservation submitted by the Republicans, so that the treaty might be ratified before the Presidential election, gave added uncertainty to the outcome of the ratification vote, despite the almost solid alignment of the minority yesterday against the Lenroot reservation to declare this country's policy toward future European wars.

## ALLIED TROOPS IN CONSTANTINOPLE

CONSTANTINOPLE, March 17.—The second day of the Inter-Allied occupation of Constantinople, carried out on Tuesday by large forces from the imposing war fleet in the Bosphorus, passed with entire calm. The Turkish police aided in keeping order. The ferry and telephone services have been resumed. Only small detachments of Allied soldiers are visible in the streets and about the public buildings. The French and Italians have only small forces here and are far less active than the British troops, which are excellently organized and took the city over with the precision of clockwork.

## NEGRO BREAKS LEG AT COMPRESS THIS MORNING

Wesley Neal, a negro employee at the Ada Compress, was injured this morning by a bale of cotton falling onto him while standing in a car. The result of which was that the left leg was broken just between the calf and ankle. The injured man was brought to the hospital where his leg was set. The same man was injured on the foot about a month ago.

## TO FILL NEW NICHES IN HALL OF FAME

NEW YORK, March 17.—Additional selections of famous Americans for the Hall of Fame are to be made this year, in accordance with the rules of the foundation providing for an election every five years. Nominations by the public at large are now open and will continue until May 1. The election will be held Oct. 1.

Robert Underwood Johnson, director of the Hall of Fame, will sail soon as Ambassador to Italy. During his absence Mrs. William Vanamee will be acting director and secretary. Twenty-one new electors have been chosen to replace those who have died or resigned since the last meeting. They include Dr. John H. Finley, Charles R. Miller, Elihu Root, Major Gen. Leonard Wood and Melville E. Stone.

Twenty vacancies are to be filled this year. The board already has 110 names held over from the last election in 1915. Only persons who have been dead ten or more years are eligible to be chosen. Any person may send in a nomination. One hundred and fifty panels in all are to be inscribed, for which the following have already been chosen:

1900—George Washington, Abraham Lincoln, Daniel Webster, Benjamin Franklin, Ulysses S. Grant, John Marshall, Thomas Jefferson, Ralph Waldo Emerson, Henry Wadsworth Longfellow, Robert Fulton, Washington Irving, Jonathan Edwards, Samuel F. B. Morse, David G. Farragut, Henry Clay, Nathaniel Hawthorne, George Peabody, Robert E. Lee, Peter Cooper, Ely Whitney, John James Audubon, Horace Mann, Henry Ward Beecher, James Kent, Joseph Storey, John Adams, William Ellery Channing, Gilbert Stuart, Asa Gray.

1905—John Quincy Adams, James Russell Lowell, William T. Sherman, James Madison, John G. Whittier, Mary Lyon, Emma Willard, Maria Mitchell, Alexander Hamilton, Louis Agassiz, John Paul Jones.

1910—Harriet Beecher Stowe, Oliver Wendell Holmes, Edgar Allan Poe, James Fenimore Cooper, Phillips Brooks, William Cullen Bryant, Francis E. Willard, Andrew Jackson, George Bancroft, John Lathrop Motley.

1915—Mark Hopkins, Francis Parkman, Elias Howe, Joseph Henry, Rufus Choate, Daniel Boone, Charlotte Cushman.

## ANSWER IS FILED BY MRS. BARNETT

WIFE OF RICH INDIAN ALLEGES  
CONSPIRACY TO ALIENATE  
AFFECTIONS OF  
HUSBAND.

By News' Special Service

TOPEKA, Kans., March 18.—Charging a conspiracy on the part of three government agents to alienate the affections of her 70-year-old husband, Jackson Barnett, millionaire Indian, Mrs. Anna Laura Barnett today filed an answer and cross-petition in the supreme court asking that the court not grant the petition of the government agents who brought habeas corpus proceedings to replace Barnett in charge of his federal guardian, Carl J. O'Hornett of Henryetta, Okla.

The three agents named are Cato Sells, Commissioner of Indian affairs; Gabe E. Parker and James C. Davis. Barnett and Mrs. Lowe were married in Coffeyville last month. The government agents have charged her with virtually kidnapping the aged Indian.

Mrs. Barnett petitioned the court to grant a restraining order to prevent the federal Indian agents from interfering with the liberty of Barnett.

OKMULGEE, Okla., March 18.—County Judge Dudley C. Monk today allowed \$1,000 as counsel fees and court costs to Mrs. Anna Laura Barnett, wife of Jackson Barnett, millionaire Creek Indian, in the habeas corpus proceedings instituted at Topeka, Kans., to annul their marriage and return Barnett to Oklahoma. The court's order was made subject to the approval of the Bureau of Indian Affairs of the department of the interior.

BUFFALO, N. Y., March 17.—Speaking in the First Presbyterian Church here this morning, William H. Anderson, State Superintendent of the Anti-Saloon League of New York, declared that the most unfortunate thing connected with the whole fight at Albany on the prohibition question was "the effort of a few service men who are brewery men in the legislature in favor of a nullification bill." He asserted that this effort was in violation of the policy of the American Legion not, as such, to enter politics, and that it was also a violation of the Constitution and the law of Congress.

## LAST MINUTE NEWS

Fighting in Leipzig

COPENHAGEN, March 18.—Advices from Leipzig state that armed workmen yesterday and this morning occupied a number of the suburbs, have advanced toward the center of the city, which is being defended by volunteer troops. Lively fighting has been going on in the streets since four o'clock this afternoon.

Luitwitz Leaves Berlin

AMSTERDAM, March 18.—General Von Luitwitz, who commanded the troops which supported the Kapp regime, has left Berlin with his armed forces, according to a telephone message received this morning.

Ebert Returns to Capital.

LONDON, March 18.—President Ebert arrived in Berlin last night according to a telephone message received by the Amsterdam correspondent of the Exchange Telegraph Company from Berlin. President Ebert has ordered the Imperial guard at Leipzig to bring action against the leaders of the revolution. Dr. Kapp, General Von Luitwitz, Admiral Trotha, and Captain Eberhardt, the correspondent says.

Minnesota Delegates Not Instructed

ST. PAUL, Minn., March 18.—Returns from 84 of the 86 Minnesota Republican county conventions held yesterday, showed that 50 of the conventions elected uninstructed delegates to the district conventions to be held Friday, and to the state convention which will take place here Saturday.

In 27 counties the delegates were instructed for Wood. Lowden was endorsed in 5 counties and Johnson received 2 delegations.

Reservations Voted Down.

WASHINGTON, March 18.—One after another today the senate voted down proposed reservations to the peace treaty.

About a dozen reservations were to be disposed of during the day, under agreement to limit debate and put the resolution of ratification into final form for vote tomorrow. Renewed attacks in the meantime were made on the administration lineup, opposing ratification, with the republican reservations already adopted but there was not much hope in any quarter that enough democrats to ratify would break away from President Wilson's recommendations.

## CALLS SERVICE MEN TOOLS OF BREWS

By News' Special Service

BUFFALO, N. Y., March 17.—Speaking in the First Presbyterian Church here this morning, William H. Anderson, State Superintendent of the Anti-Saloon League of New York, declared that the most unfortunate thing connected with the whole fight at Albany on the prohibition question was "the effort of a few service men who are brewery men in the legislature in favor of a nullification bill." He asserted that this effort was in violation of the policy of the American Legion not, as such, to enter politics, and that it was also a violation of the Constitution and the law of Congress.

"Everybody honors the men who fought in France," the league Superintendent continued, "but that service for the nation does not warrant them in now turning against the welfare of the country which they once fought to defend. On the contrary, they are held to a higher degree of patriotism and devotion to the public welfare. The public expects that the great service which they rendered shall have permanently enriched their characters."

Mr. Anderson said it was a matter of record that the brewers, through their national association, contributed to the activity of the German-American Alliance, which he said, was the agency through which the same Imperial German Government that the former service men fought in France plotted and worked against the American nation at home.

Referring to the proposed investigation of the league and its Superintendent by the Legislature, Mr. Anderson asserted it was "threatened" solely because the "league refused to keep quiet about the deal between 'wet' Republicans and Tammany to defeat honest enforcement legislation."

Mr. Anderson reiterated that he had made no attack on the Catholic Church as such, but only against some Catholics.

## SENATE PROBING RECORD OF COLBY

By the Associated Press

WASHINGTON, March 18.—Bainbridge Colby made an extensive statement to the senate foreign relations committee today regarding information on which the committee is delaying action on his confirmation as secretary of state.

There was still maintained the silence which has surrounded all previous hearings on the subject but it was said that the nominee would not be asked to appear again. The committee will meet again tomorrow and some members expect that it may take final action then.

WASHINGTON, March 18.—Whether there is to be a prolonged senate investigation of the nomination of Bainbridge Colby to be Secretary of State, probably will be determined as a result of the statement by Colby himself, today before the foreign relations committee. The committee meeting, which Mr. Colby accepted an invitation to attend, was behind closed doors, and members took every precaution to hold in confidence the nature of the matters under consideration. A half dozen other witnesses previously had been heard in secret session, and it was said that still others might be summoned.

## GERMANY IS TORN BY REVOLUTION

SOVIET REPUBLICS ARE FORMING  
WHILE HUNDREDS  
ARE SHOT DOWN  
IN SAXONY.

By the Associated Press

COBLENZ, March 18.—Two hundred Americans who have been attending the fair at Leipzig, have telegraphed and telephoned Major General Henry T. Allen, commanding the American army of occupation, urgently asking for help to leave Leipzig as dangerous to their lives. General Allen is sending a special train to bring them away.

Germany has cast off the governmental regime suddenly set up by the reactionary elements last Saturday morning, but advices indicate she is now facing another extreme peril in the form of a wave of radicalism.

Armed forces of the reactionary element are leaving Berlin today and the presence of Gustav Noske, minister of defense in the Ebert cabinet, would seem to indicate that the constitutional government intends to assume control immediately.

Announcement by Dr. Kapp, as well as official statements from the officials of the Ebert government, reflect the fear of a radical uprising in Germany. In fact Dr. Kapp's announcement stated he had resigned from the direction of affairs so that the country might be able to fight bolshevism.

Throughout Germany radical elements have in many places taken over the direction of affairs, at least temporarily.

By the Associated Press

THE HAGUE, March 18.—Soviet republics have been formed at Dortmund, Westphalia, and at Gera, 35 miles southwest of Leipzig, according to advices received here.

In the fighting at Dresden, 50 persons have been killed and 495 wounded, reports state, and the city is isolated from the rest of Germany.

PARIS, March 18.—Official advices from Berlin today describing conditions there last night said the public places of the city were filled with crowds in ugly humor. The military appeared to be of a panicky disposition. Many of the Baltic troops, the advices said, had joined forces with the independent socialists, who were reported to have 12,000 armed men at their command.

LONDON, March 18.—Rumors are current in Berlin that Dr. Wolfgang Kapp, who was head of the reactionary government set up in Berlin last Saturday, and who resigned yesterday, has committed suicide, according to the Exchange Telegraph Company from Amsterdam. The reports were received by telephone in Amsterdam from Berlin.

COBLENZ, March 18.—Gustav Noske, minister of defense in the Ebert cabinet, arrived in Berlin by airplane late yesterday, having made the trip from Stuttgart. General Von Seeckt, chief of staff for the constitutional government, has replaced General Von Luitwitz as commander at Berlin, according to advices. The danger from Bolshevism seems to be withdrawing from Berlin and forces commanded by Spartan leaders are expected to attack the city at any time. Consolidation of all parties to fight Bolshevism has been formed, only the independent socialists not being included. Elections will be held not later than June, according to latest advices from Stuttgart.

## RUSSIAN DUCHESS FOUND IN POVERTY

WASHINGTON, March 18.—The Grand Duchess Olga, sister of the late Czar Nicholas of Russia, has been found by American Red Cross workers, living in a box car near Novorossisk, South Russia, it was announced today at the headquarters of the American Red Cross here.

The Grand Duchess, according to the announcement, is one of the house of Romanoff. She was found working among fellow refugees from the territory recently conquered by the bolsheviks, giving such assistance as she could though she herself was clad in rags and grateful for any food or clothing she could find.

The lower house of the state legislature of Mississippi has voted \$5,000 to Will Furvis, a farmer of Lamar county, for having twice faced the gallows, only to be ultimately exonerated of the murder charge of which he was convicted.

## HAD TERRIBLE COUGH AND NIGHT SWEATS

Cough about gone, eats and sleeps well, and gained 12 pounds.

"In December, 1913, I had a fearful cough, and my physician ordered me to change climate immediately. I went to San Antonio, Texas, and entered a sanatorium. Left there and came to Oklahoma City in October, 1915. Had no appetite, could not sleep, had night sweats and was losing from one to three pounds a week. I also had catarrh of the bowels, which the doctors had been unable to relieve.

"Relatives urged me to try Milks Emulsion. I did so and began to improve, slowly at first, but steadily. My weight has increased 12 pounds. I have no temperature, and my cough is about gone. I can eat heartily, sleep well, and am working at my trade again."—V. W. Neff, 610 No. Dewey St., Oklahoma City, Okla.

Nature does wonders in fighting off disease, if given the chance. Milks Emulsion is a powerful help in providing strength and flesh. It costs nothing to try.

## SUFFRAGISTS TURN TO VERMONT TO WIN

By News' Special Service

WASHINGTON, March 17.—Opposition to the suffrage amendment in Delaware, where a special session is called for March 22, has developed such a serious character that suffragists are beginning to look toward Vermont for the needed thirty-sixth ratification of the amendment.

Leaders of the National Woman's Party assert that the efforts of interests opposed to suffrage have increased in strength and bitterness in each of the last ratification States.

"Beaten after a hard fight in New Mexico and by a close margin in New Jersey and West Virginia they are counted on to make a last desperate stand in Delaware," Alice Paul, Chairman of the National Woman's Party, stated today.

"The overwhelming majority of Republicans in the Delaware Legislature puts the situation in that State entirely in the hands of the Republican Party. Failure in Delaware would make necessary a special session in Vermont or Connecticut and would leave us without the leeway of a single State should the decision of the Supreme Court in the Ohio referendum case go against us."

Faced by difficulties the Woman's party is sending into Delaware its most experienced ratification campaigner to assist Mrs. Florence Bayard Hilles, Delaware State Chairman, who is directing the campaign. Mrs. Lawrence Lewis of Philadelphia, who led the successful fight in Pennsylvania, will leave for Wilmington tomorrow. Miss Betty Gram, national organizer of the Woman's Party who directed the suffrage forces in the difficult and victorious campaigns in Massachusetts, New Jersey and West Virginia, will accompany Mrs. Lewis, while Miss Anita Pollitzer, legislative secretary of the National Woman's Party, and other workers of the party in Washington will co-operate with the women political leaders here.

"In Vermont," said Miss Paul, "there is good hope for ratification. The Legislature is known to be friendly, since it passed a Presidential suffrage bill last year. The Governor, who vetoed the Presidential bill and has up to this time refused to call a special session declared last week in Vermont and in New York to local leaders of the National Woman's Party that those who believed him opposed to suffrage were mistaken and that his veto had been due entirely to his interpretation of the State Constitution and the limitations which it set upon the Legislature's power to alter State Laws."

## MUST AID THE WORLD DANIELS DECLARES

By News' Special Service

ANNAPOLES, Md., March 17.—

America must assume some gigantic task of world service, or be "recreant to the consecration we made on April 6, 1917," Secretary Daniels said here today speaking to the Midshipmen of the Naval Academy.

"The problem of world statesmanship today," he said, "is to find some task that will fire the national imagination and ennoble national enthusiasm. What shall it be? Can we escape our responsibility for aiding in securing the conditions for peace in the Balkans? Is it our duty to accept a mandatory for Turkey with the blessings to the world that would follow? Is it our job to give more aid in the development of Mexico and our central and South American neighbors."

"One thing is true; America must find a task of world blessing, and mobilize itself for its accomplishment without selfish aim, or we shall be recreant to the consecration we made on April 6, 1917, and be unworthy to claim fellowship with the youths who sealed their devotion to free government with their blood."

## Which Bridge should a woman choose?

### The Weak or the Strong One

If you see before you a strong and safe bridge leading to your goal, would you ignore it and choose some insecure and tottering structure?

If you were offered sure aid in time of trouble would you hesitate to accept it?

The answer is simple—you would choose what all evidence showed to be the safe way—and you would risk nothing in useless experiments.

Why then do some women risk one of their most precious possessions—their health—in trying medicines of unknown value, when everybody knows that the most successful remedy for woman's ills is Lydia E. Pinkham's Vegetable Compound. Here is more proof:

Reading, Pa.—"I had terrible inflammation, pains in the side and back which were so sharp that they pulled me to my knees, and I could not walk. I had an operation and still I failed, and in the eight years I suffered I had four doctors and none helped me. My mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I was then in bed, and after the first bottle I could be out of bed, then I took Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine, and also used the Sanative Wash. I still take the medicine and am able now to do my own housework. My friends say, 'My! but you look well—what do you do? Who is your doctor?' and there is only one answer, 'Lydia E. Pinkham's medicines.'—Mrs. Wm. Stein, 560 Douglas Street, Reading, Pa.

## GERMANS FORMING NEW COMBINATION

By News' Special Service:

WASHINGTON, D. C., March 17.—Though government officials refused to comment on the German situation today, it is admitted in other authoritative quarters that the seizure of power in Berlin by the reactionary forces who executed the coup d'état did not come altogether as a surprise to the American government. Confidential information has for some time convinced officials here that the Junker, militaristic and imperialistic reactionary elements in Germany have been secretly intriguing to start a counter revolution at the first favorable opportunity. The overt act at Berlin was anticipated. What the officials are now most anxious to know is whether the overthrow will be temporary and abortive or whether it will be successful.

If the new revolution fails of success it is confidently expected here that at some more favorable opportunity the reactionaries will make the attempt again. If the counter revolution is successful, the next move, it is expected here, may be a joint alliance with Soviet Russia against the Entente powers, possibly leading to a combination of Berlin and Moscow with the Turkish Nationalist and Pan Turanian movements.

Believe Ludendorff in Moscow. American officials are satisfied that the report which came through news channels last week to the effect that General Von Ludendorff has passed through Finland with a staff of German officers enroute into Soviet Russia was based on actual facts. It has not been fully verified through intelligence channels that Ludendorff is in Moscow, but there has been one from another source which is believed by officials there. Officials do know that the German general staff has been maintaining an echelon of officers in Moscow for some time, and there is no doubt here that these have been at work on military plans for the Soviet leaders. Trotsky, it is believed, has been getting credit for strategic successes won with German staff advice.

It is believed here that the entry of Ludendorff into Soviet Russia is linked up with negotiations between German reactionaries and Lenin and Trotsky, with a view to a joint alliance in the interest of Germany and Soviet Russia and with the ultimate view of opposing the Entente militarily.

The belief is held here that Ludendorff has gone to Moscow to take over charge of the actual direction of this work.

The present serious aspects of the Turkish situation are believed, in well informed circles here, to be the result of actions timed to synchron-

ize with the plans for a German coup d'état this spring. The effect of the Turkish developments has been to divert the attention of the Allies toward the Near East at a time when the military situation on the west front would be affected by internal conditions in Germany.

Enver Pasha is known to have been in Berlin recently in conference with German leaders. He has been active in promoting Armenian massacres and in planning spread of the Pan-Turanian movement of the Turkish Nationalists.

Germans Count on Allied Differences. Information reaching Washington is to the effect that the reactionaries in Prussia have interpreted the present moment as being one of distrust and disruption between the Entente Allies and for that reason favorable to German reactionary plans. Some of the elements in the situation which the Junkers are believed to be interpreting in their own favor at this time are:

First—The failure of the supreme council to persuade Holland to surrender the ex-kaizer for trial, and the effects in Germany of the demand of the Allies for surrender of the German war criminals for trial.

Second—The failure of the American senate to ratify the treaty of Versailles and the fact that the United States is not only not in the league of nations but there is little prospect now that this country will have a seat at the league council table for some time.

Third—The industrial situation in France, Italy and England, and the

embarrassment of the international exchange situation.

Fourth—Failure of the Allies so far to agree on a definite and precise Prussian policy.

Fifth—The signs of friction in the foreign policies of England and France.

Sixth—President Wilson's references to French militarism in his letter to Senator Hitchcock, and its effect upon the French government and people.

Seventh—The failure of the Allies and America to reach a satisfactory settlement with Italy on the Adriatic question.

Eighth—Failure of the senate to ratify the treaty of defense by which France would be safeguarded against unprovoked attack by Germany.

Washington believes that if successful the present revolt will be followed by rapid developments in the direction of an understanding between reactionary Germany and Soviet Russia, and that if the revolt should fail it will be followed later by another counter-revolution by the German reactionaries.

Believe it Monarchistic Plot. Whether the counter-revolution succeeds or fails, there is no doubt in the minds of American govern-

ment officials that this move of the German junkers and imperialists is of much greater consequence for the whole entente world than a mere change of government in Germany.

It is believed here that the full story of all that has happened in Berlin during the past forty-eight hours has not been told, owing to junker control of communications.

Throughout the stories from Berlin runs the evident purpose of the leaders of the Luttwitz-Von Kapp revolt to lull the outside world into the belief that the counter revolutionary movement is neither reactionary nor monarchial. These professions are accepted in Washington as mere camouflage. It is not believed that in inner government circles in Paris and London they are regarded any differently than in Washington, because it is known that the same inside information which the Washington government has had on the situation has been in the possession of the British and French intelligence service.

American military experts and other officials in the government have been in possession for two months of evidence that the junker crowd, in combination with the militarists and reactionaries, have been

planning and intriguing a counter-revolution, to be attempted probably in conjunction with the Spartacists some time this spring. Especially during the past two weeks there have been indications that the expected counter-revolution was about to be speedily undertaken.

At the same time the weight of the evidence reaching Washington has been that the revolution would be abortive and that Noske, the Ebert minister of war, would be able to control the situation, provided he remained firm in support of the Ebert government and did not yield or surrender to the reactionaries.

No evidence, official or press, has yet reached Washington to convince military or civil officials that the reactionary revolt is going to succeed at this time.

Very much depends on the efforts to be made by the fugitive Ebert government to recover control of the situation and how these are received by the Ebert volunteer forces, by the socialists and working elements and by the people of Germany generally.

The Ebert government has a volunteer force of about 500,000 men, and there were about 500,000 men in irregular forces of home guards,

constabulary and other forces. Some of the members of the volunteer force of 500,000, according to information received, have gone over to the counter-revolution, but nothing in the news dispatches, it was pointed out by a high official tonight, showed that any large part of the force had abandoned the Ebert government.

"As a corporal I was drawing down \$38.10 a month every time the bugles blew 'Pay Day'.

"And when I read in the papers about the big civilian pay envelopes, civil life opportunities looked pretty good to me!

"I took up my old job when I got back and when then they raised my pay to \$35.00 a week—almost as much as I got every month in the Army—well, I thought I was sitting on the world.

"But times have certainly changed! Thirty-five a week today goes like a breeze. Food has advanced, shoes cost more, and every time I buy a suit I think I'm paying for the war as well as fighting it.

"I'm classed, I guess, as just an unskilled worker, I left school too early and I'm sorry for it now.

"And where'll I be ten years from now? Answer me that! Working for day wages, making a living and nothing more? I guess not—for I'm going back to join the Army!

"I'm going to take a job that will give me more free cash than I get today—a job that'll mean all my expenses paid—a training that will make me the kind of man who succeeds and a life that'll keep me feeling fit and fine."

## Health, Travel and Training

Congress has appropriated \$2,000,000.00 to be used in the Army Schools. In many schools and posts you will have the opportunity of being trained in the skilled trades and at practically all Army stations, schools are in operation in which you can improve your education.

You'll have enough out-door work to keep you in perfect trim. You'll learn the sort of discipline that makes a man able to handle other men. You'll have a fine crowd of buddies. You'll live a fine healthy life—no soft snap about it, but it will be a life that will make you a regular man.

You'll learn how to hold up your end in any company. You'll have an increased ability—a sure self-confidence on your return.

You'll be a part of America—one of its fighting men—its bulwarks of defense. If there's any trouble that the Army has to settle you'll have a red-blooded man's chance to do your share of the settling.

And three years from now, when the men who are working besides you now are still working for day wages, you will step out with a training that will command real money.

Think it over. The next three years at home; and no further along at the end.

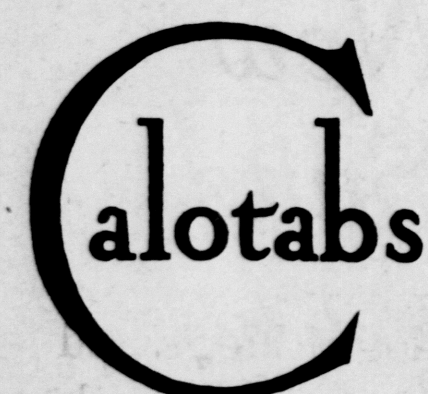

Or the next three years in the Army, and a training that you can cash in on for the rest of your life. It's worth investigating, isn't it? Worth stopping in at the recruiting office to talk to the man in charge.

## THE BIRTHDAY OF A MAN

Yesterday this column was filled with an editorial paying tribute to an Irish saint. Today we have in mind an American who was far from being a saint, but who in his day and generation filled a large place in the affairs of his nation, and who has grown in reputation with the passing years. This is the birthday of Grover Cleveland.

In looking back to that stirring era wherein Cleveland loomed so large it is easy to divide his career into three distinct divisions. During the first he was acknowledged a great political leader and the dominant figure of his country. During the second division of time he was probably the most unpopular man in America and easily the most misrepresented and misunderstood. The third division embraces the times through which we are passing and presents Mr. Cleveland as a wise and courageous public servant whose name and fame have been rescued from the shadows of undeserved calumny and who is admitted into the ranks of the few really great men of the republic.

Grover Cleveland furnished the most striking example of its kind in American history. He reached the presidency twice without the aid of these qualities of grace and magnetism which other men found essential. He had none of the charm that won a nation's love for McKinley. He never appealed to popular fancy like the hero of San Juan. He never stirred the ideals of Americans like they were stirred by Woodrow Wilson. He had two qualities that comprised his stock in trade, and they were honesty and courage. These qualities made him mayor of Buffalo. The exemplification of these qualities in the mayor's office made him governor of New York, and by winning the governorship he won the presidency.

The first administration of Cleveland was a pronounced success. During his second administration success was impossible. The times were out of joint, and for four long years Cleveland endured the ordeal later endured by Taft, who was president at a time when the wisest and best of the sons of men could not avoid disaster.

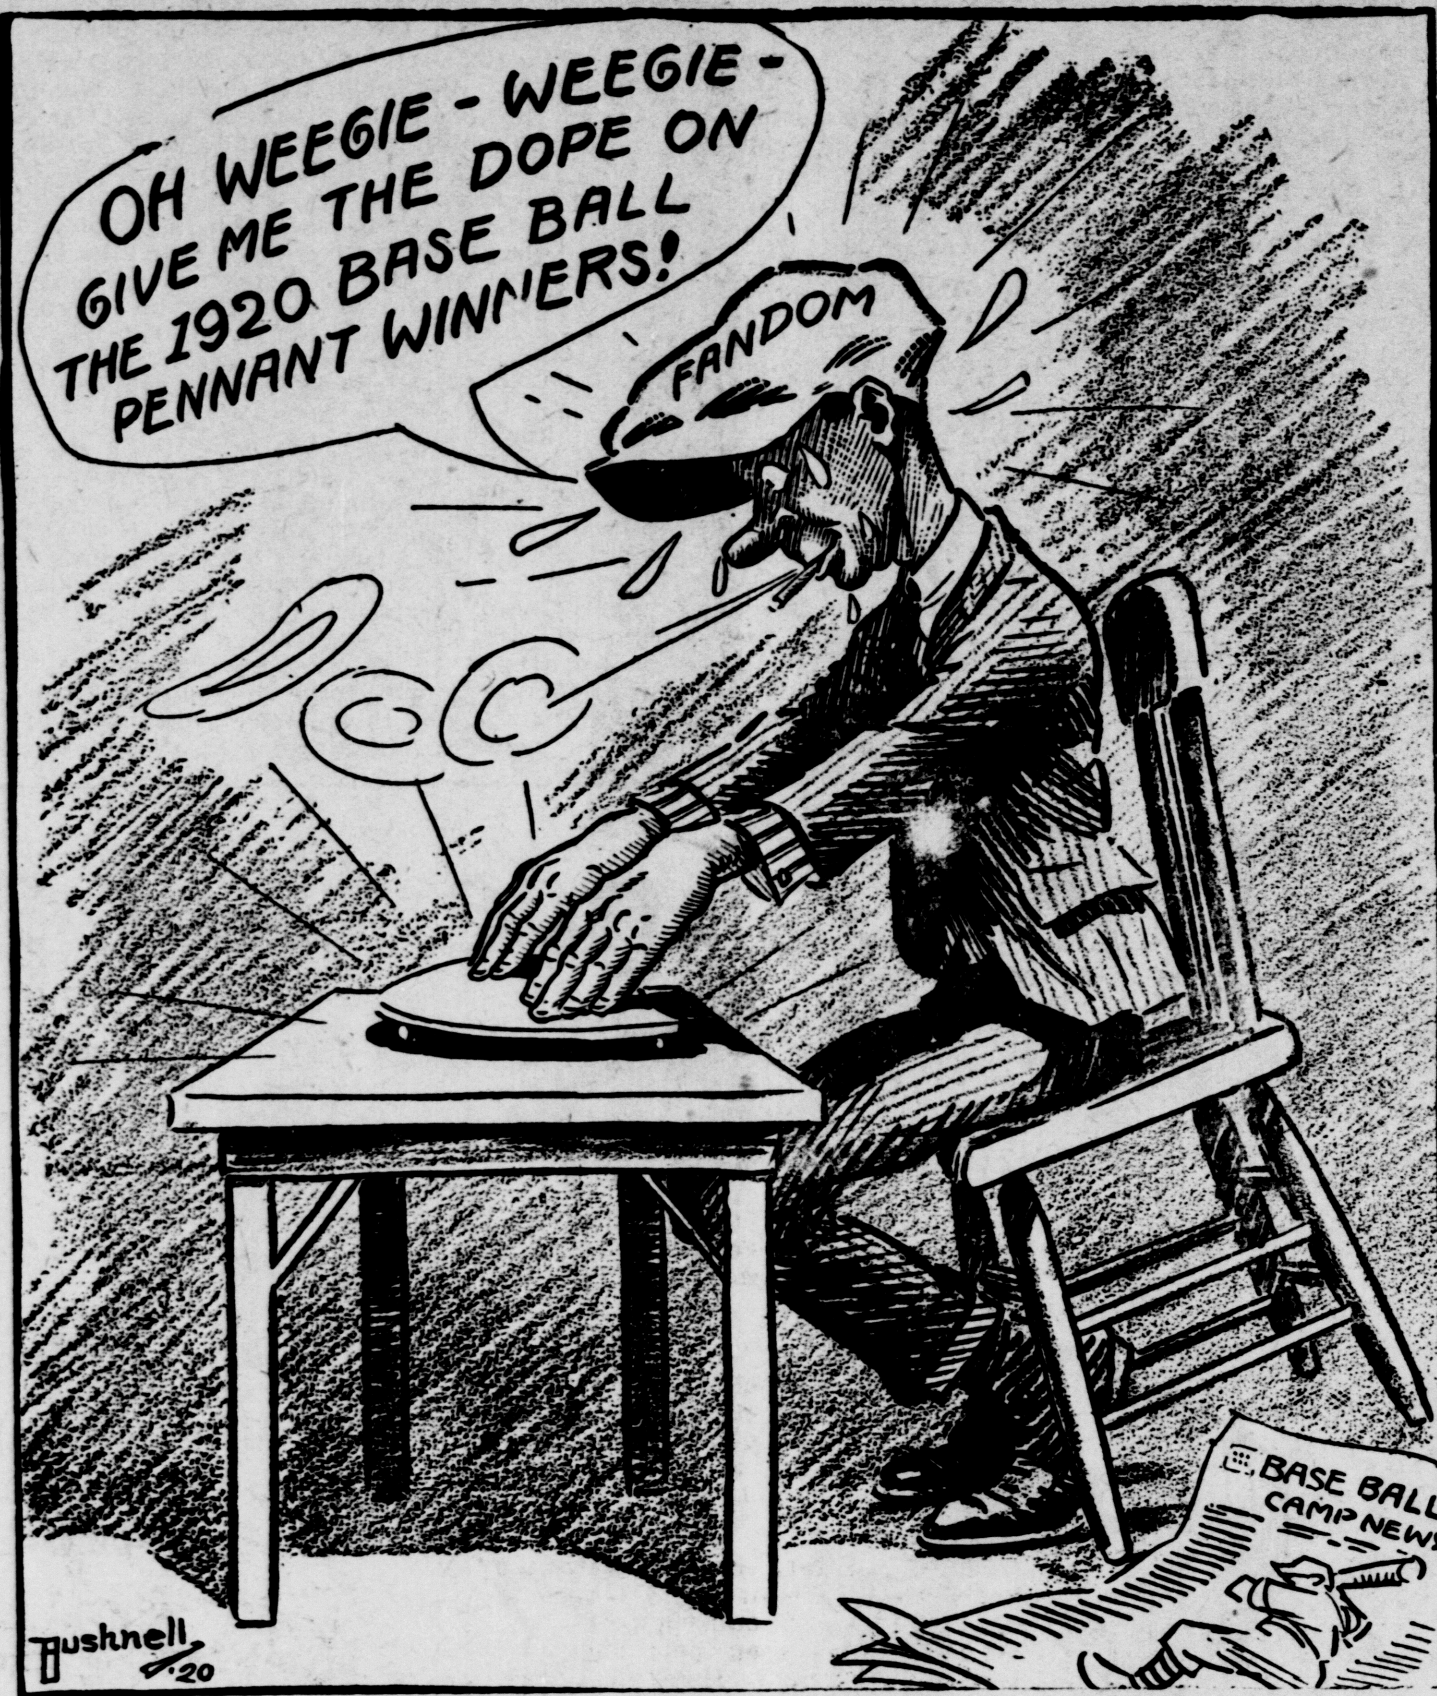

No other president was ever tested in the same way that Cleveland was tested in the nineties. He escaped the fate of Lincoln and Wilson, who were tried in the fiery crucible of war. But they faced fate with marching legions behind them and with the hot blood of patriotism leaping to the nation's call. There was no bugle note to cheer the followers of Grover Cleveland—nothing but the stern and deathless voice of duty driving him on to ceaseless battle, while a world groaned amid a wreck of financial chaos and every demagog in America sought to win political advantage by accusing Grover Cleveland.

It was a fight no man could win. He was unable to still the waves of the tempest, but behind the storm that moaned its hate for him and all that he stood for, he maintained the course of a man. He stood true to the laws and ideals of the nation, he stood for the constitutionality of the old constitution, he stood for the undying truth of the old maxim: "Honesty is the best policy." While his party repudiated him and the country foreswore him, he lived to see his policies vindicated and died respected by the country he lived to serve.

Since the prejudice and passions of the nineties have subsided Cleveland's name has taken on a brighter lustre. Slowly, even grudgingly, the country has come to admit that of all the men who have figured in the history of America none was more honest or more courageous than Grover Cleveland, and that amid a thousand temptations that would have wrecked a weaker soul, he never sold the truth to serve the hour."

In Sunday's Oklahoman is a political comment by Walter M. Harrison that makes mighty interesting reading when one bears in mind that the writer of the comment is a delegate to the San Francisco convention. Mr. Harrison simply mentions the fact that Senator Owen has been voting for a number of reservations to the peace treaty and that there are about a half dozen members of the Oklahoma delegation to Frisco who are in favor of the treaty without any reservations whatsoever. It may be a bitter pill, quoth Mr. Harrison, for these delegates to support Senator Owen since he has become more liberal in his views of the peace treaty. Mr. Harrison being one of the delegates to the national convention and having been named by Senator Owen, himself, is in a fine position to appreciate the feelings of delegates bound to the Owen candidacy, first, last and forever. One is prone to wonder what Mr. Harrison himself thinks of the new phase of the presidential proposition.

## SOMETHING BEYOND THE KEN OF MORTAL MIND

### Amazing Predictions.

One of the foremost newspapers in London (England) made this comment upon the campaign carried on by Lord Roberts some time before the war in favor of a modified form of conscription: "Lord Roberts of Kandahar was a hero and a success; as a prophet he is out of place."

To which the fine old war veteran replied: "They refuse to believe me, and we sleep under a false security, for I do not hesitate to affirm that we shall have a frightful war in Europe, and that England and France will have the hardest experience of their existence. They will, in fact, see defeat very near; but the war will finally be won by the genius of a French general named Ferdinand Foch, professor in the military school in Paris."

Lord Fisher has lately been saying much about "submersibles," and their almost universal use in the future for ocean transit, but Mr. Rudyard Kipling, long before submarines were invented, predicted in his book, "With The Night Mail," that in the year 2000, when all passenger traffic moves in air, heavy transport will still be conducted by sea in huge "submersibles."

It has been pointed out a thousand times how Tennyson draws a wonderfully faithful picture, in his great poem, "Locksley Hall," of "airy navies grappling in the central blue," and of argosies of airships bearing "costly bales" to distant lands, but few know that William Cowper, who died in 1800, nine years before Tennyson was born, discussed aviation in a letter to a friend. He asks: "If man becomes as familiar with the air as he has long been with the ocean, will it prove a mercy or a judgment?"

Mark Twain made an aviation prophecy long before airplanes had been thought of, which, although still in the region of the future as far as actual realization is concerned, has almost succeeded, although it was regarded by its author as the most colossal bit of fooling. He pictured his hero in one of his stories "planning back home to America from Africa to fetch his favorite pipe!"

An amusing shot at the truth was made by his schoolmates when Lord Jellicoe was at Hewitt's old school at Rottingdean in the early '70s. One of his schoolmates says: "Johnnie Jellicoe was an attractive lad, we all liked him. We knew that he was destined for the navy, and we made a little rhyme about him, of which

I can only recall some words of the refrain: "I'm John Jellicoe, commander of the fleet."—Kansas City Journal.

### Washington Dope

The cost of the medals that the United States has given or will confer on the soldiers, sailors and marines who participated in the world war will be in the neighborhood of \$5,000,000.

Employment has been found for more than 6,000,000 men and women by the United States employment service since its organization in January, 1913, according to the latest report.

Members of congress from Montana and North Dakota urged the house rules committee last week to give privileged status to legislation providing for federal loans to "dry" farmers to buy seed.

Counterfeiting has doubled in the last six months, due to the circulation of a greater number of government securities including federal reserve notes, according to a report of the secret service bureau.

Representative Britten, Republican, of Illinois, introduced a bill in congress last week to prevent open conflict between various states and federal officers and to allay the present unrest of labor in every state of the Union.

A tax of 1 cent on every 100 matches to be paid by the purchasers, was proposed in a bill last Saturday by Representative Alkerman of New Jersey as a means of realizing revenue for the bonus for the soldiers' movement.

Charges that William G. McAdoo by wild extravagances of his mode of financing while an official at the White House cost this country more than \$1,000,000,000 were made in the senate by Senator Kellogg of Minnesota.

The house has completed work on the legislative, executive and judicial appropriation bill, which cuts from the government roll more than 40,000 civil employees and represents a flat reduction of \$24,000,000 from submitted estimates.

Five million barrels of Federal Grain Corporation soft wheat flour will be sold on credit in Europe unless congress authorizes \$50,000,000 loans to finance the sales, Julius Barnes, head of the corporation, told the house rules committee.

Why Druggists Recommend Swamp-Root

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine. It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do. Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends. Be sure to get Swamp-Root and start treatment at once. However if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Ada News. adv.

RAILWAY MEN ARE OPPOSED TO HARDING

By News' Special Service:  
COLUMBUS, Ohio, March 17.—There appeared in Ohio today in all of the railway centers the cards of the Railwaymen's Anti-Harding Club, with the names of its principal backers. A branch has already been organized at Newark, where railway operatives held a meeting a few evenings ago and contributed \$1,000 to the propaganda against Senator Harding's endorsement by the Ohio delegation to the republican national convention. The club is recruiting members through cards, railway and other craftsmen being eligible to membership. Each signer of a card agrees to get two other signers to attend the primaries on April 27 and vote against Harding delegates to the national convention. Senator Harding is pictured as a reactionary rolling a stone—the Cummins bill—across a railway track in front of an engine marked "progress." The Harding forces have not been taken wholly unawares by the move, but are endeavoring to form an organization among the workmen in favor of their candidate. There are reports from the mining camps that their arraignment of General Wood as a militarist is bearing fruit in the opposition of this class of workers to Wood's candidacy. Germany seems to have plenty of governments, such as they are, but they aren't doing a great deal of governing.—Oklahoma City Times.

GOMPERS SAYS PUBLIC DAMNS PROHIBITION

By News' Special Service:  
TRENTON, N. J., March 17.—A presentation of labor's cause against men in public life was made by Samuel Gompers at a mass meeting under the auspices of the Mercer County Central Labor Union at Taylor's Opera House this afternoon. He declared that the men in office have not carried out labor's wishes should be elected a vacation. Mr. Gompers said he did not believe New Jersey was going to forget the injunctions of United States Attorney General Palmer against the coal miners. Referring to prohibition, Mr. Gompers said there was little doubt of what would happen to the Eighteenth Amendment if it were submitted to the people. In his journey through the United States he said he had yet to come in contact with

anyone who did not "damn prohibition up hill and down dale." "I have not met one man," he said, "who has said to me that he was in favor of prohibition just as it stands today. We are the object of the ridicule and contempt of the people of other countries, who cannot possibly understand why 100,000,000 people have been subjected to the wishes of a few fanatics who have attempted to make people good by law." He declared that prohibition was an invasion of personal liberty, and said that he was acting "as a barrel to sound the sentiment of organized labor in the matter." Criticizing Governor Allen of Kansas, who addressed the legislature here last Monday night on the Industrial Relation Court that has been established in Kansas, Gompers said that Governor Allen was "trying to foist upon the people of New Jersey the same incubus he forced upon the people of Kansas." Mr. Gompers said that Governor Allen would have to reckon with labor if he lived long enough. He paid his respects to the profiteers and said they were men who "prayer for the

people on Sunday and preyed upon them the rest of the week." Arthur A. Quinn of Perth Amboy, president of the New Jersey State Federation of Labor, also condemned Governor Allen's Court of Industrial Relations. Quinn said he doubted if the bills to benefit labor that are now pending in the legislature such as the anti-injunction measure, would pass, because the workers of New Jersey have been too partisan. Quinn said that Governor Edwards was with the labor men.

SAY MISTER!

If you had enough material to build a good automobile and had a man with a hammer and saw and another with a shop consisting of all modern machinery and the latest mechanical devices bidding for the job at the same price, which man would you choose? Why sure, we make you laugh, now: If you had a suit of clothes which needed "overhauling" and there was one man with a "shop" run by a hand washing machine and a "full-of-gasoline-odor-system" bidding against us for the job at the same price which place would you choose? Yes, go ahead, you're entitled to another laugh.

What Beautiful Sweet Peas!

THE beauty of your sweet peas depends largely upon the seed you sow. Vigorous, sturdy vines with luxuriant, fragrant blossoms grow from seed of proven vitality. Outdoor seeding must be done as soon as the soil is in condition. A plan advocated by many successful gardeners is to sow the seed early indoors and transplant when the weather permits.

Start your sweet peas right by sowing Northrup, King & Co.'s tested seeds. These seeds are especially bred for hardiness, beautiful colorings, large and abundant blossoms. They represent years of gardening experience.

You can get Northrup, King & Co.'s Sweet Peas and other Flower Seeds for 5c a packet from the convenient seed case now at dealers near you. Then just follow the cultural directions on every packet.

CHANDLER SIX  
Famous For Its Marvelous Motor

Chandler Leads Because of Its Real Worth

IT is easy to boast and make claims and to so magnify mere incidents that they may appear as mighty events. It is easy to paint in the colors of exaggeration.

Chandler advertising has never carried boasts or unfounded assertions to the public. It has never extolled some single performance as final evidence of superiority.

The Chandler Six is so distinctly the leader among medium-priced high-grade cars because of its own worthiness, which for sales purposes does not need the support of exaggeration.

Chandler worthiness comes primarily, of course, from its great chassis, light, strong and enduring, featured by the famous Chandler motor developed throughout seven years of constant manufacture with no change of type of design, but with refinements and developments which have kept it long strides ahead of any other six.

This isn't a claim. It's a fact, and over sixty thousand Chandler owners would tell you so if you could ask them.

Six handsome bodies, splendidly built and finished, are mounted on the one standard Chandler chassis.

Other cars of some similarity are listed at hundreds of dollars more

## The World's Great Literary Bibles

Books That Came Out of the Hearts and Minds of the People for Their Authors Were Only Spokesmen—Human Books That Take Firm Hold on Human Life—Broad-Minded Books Whose Authors Saw Life Steadily and Saw It Whole.

### HOME READING COURSE NO. 1

(A certificate, bearing the seal of the United States Bureau of Education, signed by the Commissioner of Education, will be awarded to each person who gives satisfactory evidence of having read all the books in the accompanying list. You are invited to join the great national reading circle, making your own selection from the reading courses provided.)

AMONG the books of the world a few are so prominent for content and style that they have been called "The Literary Bibles." These are the *Iliad* and the *Odyssey* of Homer, the *Divine Comedy* of Dante, the greater dramas of Shakespeare, and Goethe's *Faust*. Each of these is the embodiment and revelation of the ideals of a race, an age, or a civilization.

They came out of the hearts and minds of the people for whom their authors were only spokesmen. They are therefore simple, fundamental, and comprehensive. They appeal to the hearts and grip the minds of all people everywhere, young and old, learned and unlearned, of whatever race or creed. They are human books and take firm hold on the human life which we all live, which few understand, but which in all its phases has "interest without end."

They are broad-minded books. Their authors saw life steadily and saw it whole. Kings and priests to God and humanity, they interpreted for man the eternal mysteries. Prophetic men they stood on the mountain tops and caught the glow of the over-dawning new day. Finely organized men, they felt the heart throbs and pulse beat of the human race; they understood the hopes and fears and aspirations of humanity better than most, and they have set these to the music of rhythmic winged words.

These books should be read by all who would know the world's literature and life. The United States Bureau of Education has therefore chosen them for its first course in reading, and invites all young men and women to join this, its first national reading circle, the members of which will undertake to read each of these books, at least twice within the next three years from the time of joining the circle.

To each person who gives satis-

factory evidence of having read twice all the books on the list a certificate will be awarded bearing the seal of the United States Bureau of Education and signed by the Commissioner of Education. All young men and women who want to know the best there is in the literature of the world and to gain the inspiration it gives are invited to join this national reading circle, and it is hoped that many thousands will do so.

Charles Alphonso Smith, professor of English in the University of Virginia; Charles Forster Smith, professor of Greek in the University of Wisconsin; Richard Burton, professor of English literature in Yale University, have assisted the Bureau of Education in directing this course of reading.

In writing about this course refer to it as "United States Bureau of Education, Home Education Division, Reading Course No. 1," or "The World's Great Literary Bibles."

Communications should be addressed to Home Education Division, Bureau of Education, Washington, D. C. Miss Ellen C. Lombard is director of the Home Education Division.

### READING COURSE NO. 1.

1. The *Iliad* of Homer. Lang, Leaf, and Myer.
2. The *Odyssey* of Homer. Butcher and Lang, or, The *Odyssey* of Homer, William Cullen Bryant.
3. The *Divine Comedy* of Dante, C. E. Norton, or, The *Divine Comedy* of Dante, Astor edition, or, The *Divine Comedy* of Dante, Henry Wadsworth Longfellow.
4. Shakespeare's *The Merchant of Venice*, Macbeth, Othello, and Hamlet. Any edition.
5. Goethe's *Faust*. Bayard Taylor.

**SWEETS IMPERIL BEAUTY OF GIRLS SAYS A PHYSICIAN**

NEW YORK, Jan. 9.—"Unless the young women of this generation stop 'guzzling' sweets, pastries and fatty foods; unless they stop off their high heels and wear foot-fitting shoes, and unless they cease inhaling cigarettes and paint plastering their faces, the next generation of babies is going to be afflicted with unbecomingly mammas," Dr. Eugene Lyman Fisk warned Thursday night.

Dr. Fisk, head of the Life Extension institute and co-author with Professor Irving Fisher of Yale of "How to Live," is a lover of the beautiful as well as health expert. He is launching a drive by the institute to "make the American woman the loveliest in the world."

He believes an educational campaign will do wonders for this "unheeding generation," and he is basing his ideals of womanly beauty upon Grecian proportions as manifested in statues carved by the ancients.

"Women are longer lived than men in any case," said Dr. Fisk. "Beauty is their chief ambition. I believe the woman who neglects to cultivate her health by a health regime is not doing her duty to the

state. It is her mission to be beautiful.

"Once a woman is physically fit, she must be powerfully ugly if she fails to radiate charm, magnetism. If she is too fat she has not achieved beauty. She must diet and exercise. If she is too thin, she needs rest and sleep and proper food. And above all things, women of this generation must watch themselves as they approach 30, the danger age. It is then that she begins to retrograde."

"In the cities," said Dr. Fisk, "women on the average reach the age of 51. Men, figuring on the medium basis, die at the age of 56. In the rural districts women live to be 68; men to be 66. We account for it by the fact that men are more open to various infections, live harder and take less care of themselves."

"Both sexes reach the high peak of vitality at about 21 and 30 is the age when vitality begins to drop."

"It is astonishing to see men of 35 or 40 seemingly sturdier, handsomer, than they were at 25 or 30, while women past the 30 mark evince clearly in face and form the wear of time. Flat feet, bad teeth, short wind and general run-down health are curses upon both sexes. Should there be a war draft for women as there was for men, the figures would prove just as many physical defectives among the women."

"It is true that there have been women who have been declared greater beauties at 35 and even 40 than they were in their early twenties. But these women, like the lovely Sappho of old Greece, are and have been professional beauties. A woman ceases to be lovely when she begins to increase her waist line, and this warning applies to both sexes."

"If you want to keep alive, keep your waist line."

"The lightweights live the longest; lean greyhound type of humanity has the best chance of fooling Daddy Time."

The B. W. M. S. will meet in district meetings Monday at 3 P. M. District No. 1 will meet with Mrs. Mount, District No. 2 will meet with Mrs. Dave Jackson, District No. 3 with Mrs. Duncan and District No. 4 with Mrs. Emory. Everyone is urged to attend her district meeting Monday that we may start the new year with a large attendance and lay large plans for work throughout the year.—Mrs. R. E. L. Ford, President.

**First Baptist Church.**  
Last Sunday we had 404 in Sunday School. This was pretty good considering the fact that a great many of our people had gone home for the holidays. We hope to go back to 450 tomorrow and can do so provided all the old attendants come back. We will expect to see you on hand promptly at 9:45.  
The morning hour for worship will be taken up with hearing reports from the heads of the various organizations within the church. These reports will be very interesting and it will be worth your while to be present. We will also have talks by the different new officials and by the pastor.  
The Sunbeams will meet at 2:30 with Mrs. Harry Morris in charge.

The two Juniors will meet at 4:30 with Mrs. C. C. Morris and Miss Lena Ragsdale in charge of No. 1, and Mrs. Dr. Webster in charge of No. 2.  
The Senior B. Y. P. U. will meet at 6:15. All the members are urged to be present and bring someone with you.  
The night service will begin at 7:30. The pastor will preach along evangelistic lines. Prof. Fentem will be in charge of all music at both services.

The public is cordially invited to any and all these services.—Clyde Calhoun Morris, Pastor.

**Christian Church.**  
The Bible School meets every Sunday morning at 9:45. A live school. "Come and see."  
Morning worship begins promptly at eleven o'clock. Prof. Perkins of the college will speak Sunday morning. Prof. Perkins has just been to a great meeting at Des Moines, Iowa, and will speak on the theme, "Mountain peaks on which I stood." This promises to be a very interesting message. Every member of the church ought to be present. Students of the college, high school students and all others are most cordially welcome.  
The Junior Endeavor will meet at four o'clock.  
The Intermediate Endeavor will meet at five o'clock.  
The Senior Endeavor will meet at six o'clock.  
Evening worship will open at seven o'clock. A male quartet will sing. The minister will preach the second one of his sermons on Revelation. His theme will be "The Seven Spirits of God." A large audience is expected. There is a question box near the door and the public is welcome to use it.—C. V. Dunn, Minister.

Ten months ago the Individual Deposits of this bank totaled only \$56,000.00. Today our total Individuals amount to \$275,000.00, with a grand total of over \$320,000.00.

In ten months the Guaranty State Bank has emerged from obscurity and become a recognized factor in the business life of Pontotoc County. Hard work, careful management and good business methods have put us on the map.

And they asked us how we did it,  
And we gave 'em the scripture text,  
"You keep your light so shining  
A little in front of the next!"  
They copied all they could follow,  
But they couldn't follow our mind,  
And we left 'em sweating and stealing,

### A Treasury of English Prose

"These wait upon the shores of death, ad wait unto him to draw near, wishing above all others to see his star that they might be led to his place; wooing the remorseless Sisters to wind down the watch of their life, and to break them off before the hour."—Bacon.  
"Methusalem, with all his hundreds of years, was but a mushroom of a night's growth to this day; and all the four Monarchies, with all their thousands of years, and all the powerful Kings, and all the beautiful Queens of this world,

were but as a bed of flowers, some gathered at six, some at seven, some at eight—all in one morning in respect of this day."—John Donne.  
"When all is done, human life is at the greatest and the best, but like a forward child, that must be played with and humored a little to keep it quiet till it falls asleep, and then the care is over."—Sir William Temple.  
"And again the sun blinks out, and the poor sower is casting his grain into the furrow, hopeful he that the Zodiacs and the far Heavenly Horologes have not faltered; that there will be yet another summer added for us and another harvest."—Carlyle.  
"To what port are we bound? Who knows? There is no one to tell us but such weather-tossed mariners as ourselves, whom we speak as we pass, or who have hoisted some signal, or floated to us some letter in a bottle from far."—Emerson.

### "The Fall of Babylon."

The eleventh sermon on the Book of Revelation will be preached next Sunday evening at the Christian Church. The subject will be "the Fall of Babylon." The prophecies concerning Babylon are among the greatest of the prophecies. Chapter seventeen and eighteen are taken up with this important question. "Babylon" represents a great ecclesiastical organization of our day, its fall will be terrible. "Babylon" is called the Mother of Harlots. Who or what are these harlots? Some surprising things will be brought out in this sermon. Come and see.—C. V. Dunn, Minister.  
Irregular bowel movements should be corrected, as they lead to chronic constipation. Take a dose of Prickly Ash Bitters at bedtime. You will get its beneficial effect after breakfast next morning. **THE OSTEOPATH** is by education a physician. He practices a new and complete system of treatment. He diagnoses a case and treats it. He must know diseases in all their phases and manifestations. He must be a skilled anatomist, for he is an anatomical engineer, the body mechanic, and he effects his cures by scientific adjustment of the structures of the body. Thus it is plain that to speak of Osteopathy as "rubbing" is gross carelessness of speech, and to call it massage is a confession of ignorance of its principles.

## BRAVES WANT SCALP OF LEONARD WOOD

By News' Special Service:

DEWEY, Okla., March 17.—General Leonard Wood, reputed Indian warrior, has talked himself into a real Indian war.

Take it from Poor Lo himself—Wood is going to see some Indian fighting that's genuine this time.

Tomahawks and scalping knives probably will not glitter gloriously. But in this respect Wood's newest death struggle with the braves—staged 34 years after the now-famous original "fight"—will run true to form.

There were no tomahawks or blood-curdling war cries then either—only the gentle whisper of the wind around the wigwam deserted by the fleeing Indians an hour before the then Doctor Wood "dashed" bravely up. So the official records show.

### This Battle Will be Real

This is going to be a real Indian war! Ballots will be bullets. Instead of the congression medal that Wood got 12 years after his original bloodless battle for "distinguished services," his "reward" this time will be a swarm of Indian votes cast for somebody else.

For Chief Richard C. Adams of Dewey, Delaware Indian and organizer of the Brotherhood of North American Indians, has gone on the warpath.

Wood called certain Indians "a mean, sullen and treacherous band of savages."

Chief Adams saw red when he read a Wood presidential campaign booklet entitled "The Career of Leonard Wood," particularly a chapter on "The Indian Fighter," running 23 pages.

### The Big Chief's War Cry

"In those pages," says Chief Adams in an appeal to Indians of North America, "is found the story passed on by General Wood and distributed by his headquarters showing his feelings, his sentiment, his contempt and disregard for the original Americans of the North American continent."

"It is up to each of you Indians to make a choice for president. I sincerely trust you will select a man who respects our rights, our position and intelligence—and does not belittle us with the careless remark that it is only 'the survival of the fittest' when 10,000 to 1 comes against the fittest."

Rapid heart throbbing does not necessarily mean heart disease; generally it is caused by a disordered stomach. Prove it for yourself by taking Prickly Ash Bitters; if the stomach is at fault the heart symptoms will quickly disappear. Price \$1.25 per bottle. Gwin-Mays Drug Co., Special Agents. adv.

### SMILE, DARN YOU.

#### Foresight.

Druggist—What are you doing with that gauze and adhesive tape and iodine?

Clerk—Just laying it out here ready. I saw Gus Spiegel hunting Tim Monahan a bit ago intending to call him a liar.

#### Power of the Rural Press.

Owing to the lack of space and the rush of the Herald's prize contest several births and deaths will be postponed until next week, or until a later date.—Lusk Herald.

#### Caustic Comment.

"Here," said the angry customer to the non-advertising butcher, "is that meat I got from you today. When I opened it up at my home my wife wanted to know if I got it at one of those 'cash and carry' places."

#### Sine Qua Nons, Etc.

Plenty of worth that isn't a hoax. Plenty of nice display. And courteous service, make the folks think less of the price they pay.

The Furniture Dealer's Assistant. "What is the fly doing, papa?" "He is making period furniture of our bird's-eye maple, my son."

#### All Right, All Right.

"We got a better watch dog'n what you're is!" "How so?" "He's a thinner model and he's got more ticks!"

#### Maybe So, Maybe So!

"Here's somebody advertising that 'an automobile varnish has to fight to survive.'" "Yuh-huh. What they call a finish fight."

#### Taking No Orders.

New Salesman (hotly)—"I will take no orders from no man." Salesmanager (coldly): "Yes, I noted that while you were out on your trial trip."

#### Superstructures.

The local basketball team will wear their new shirts on Friday night. The trousers have not yet arrived.—Michigan City News.

#### Sure Thing.

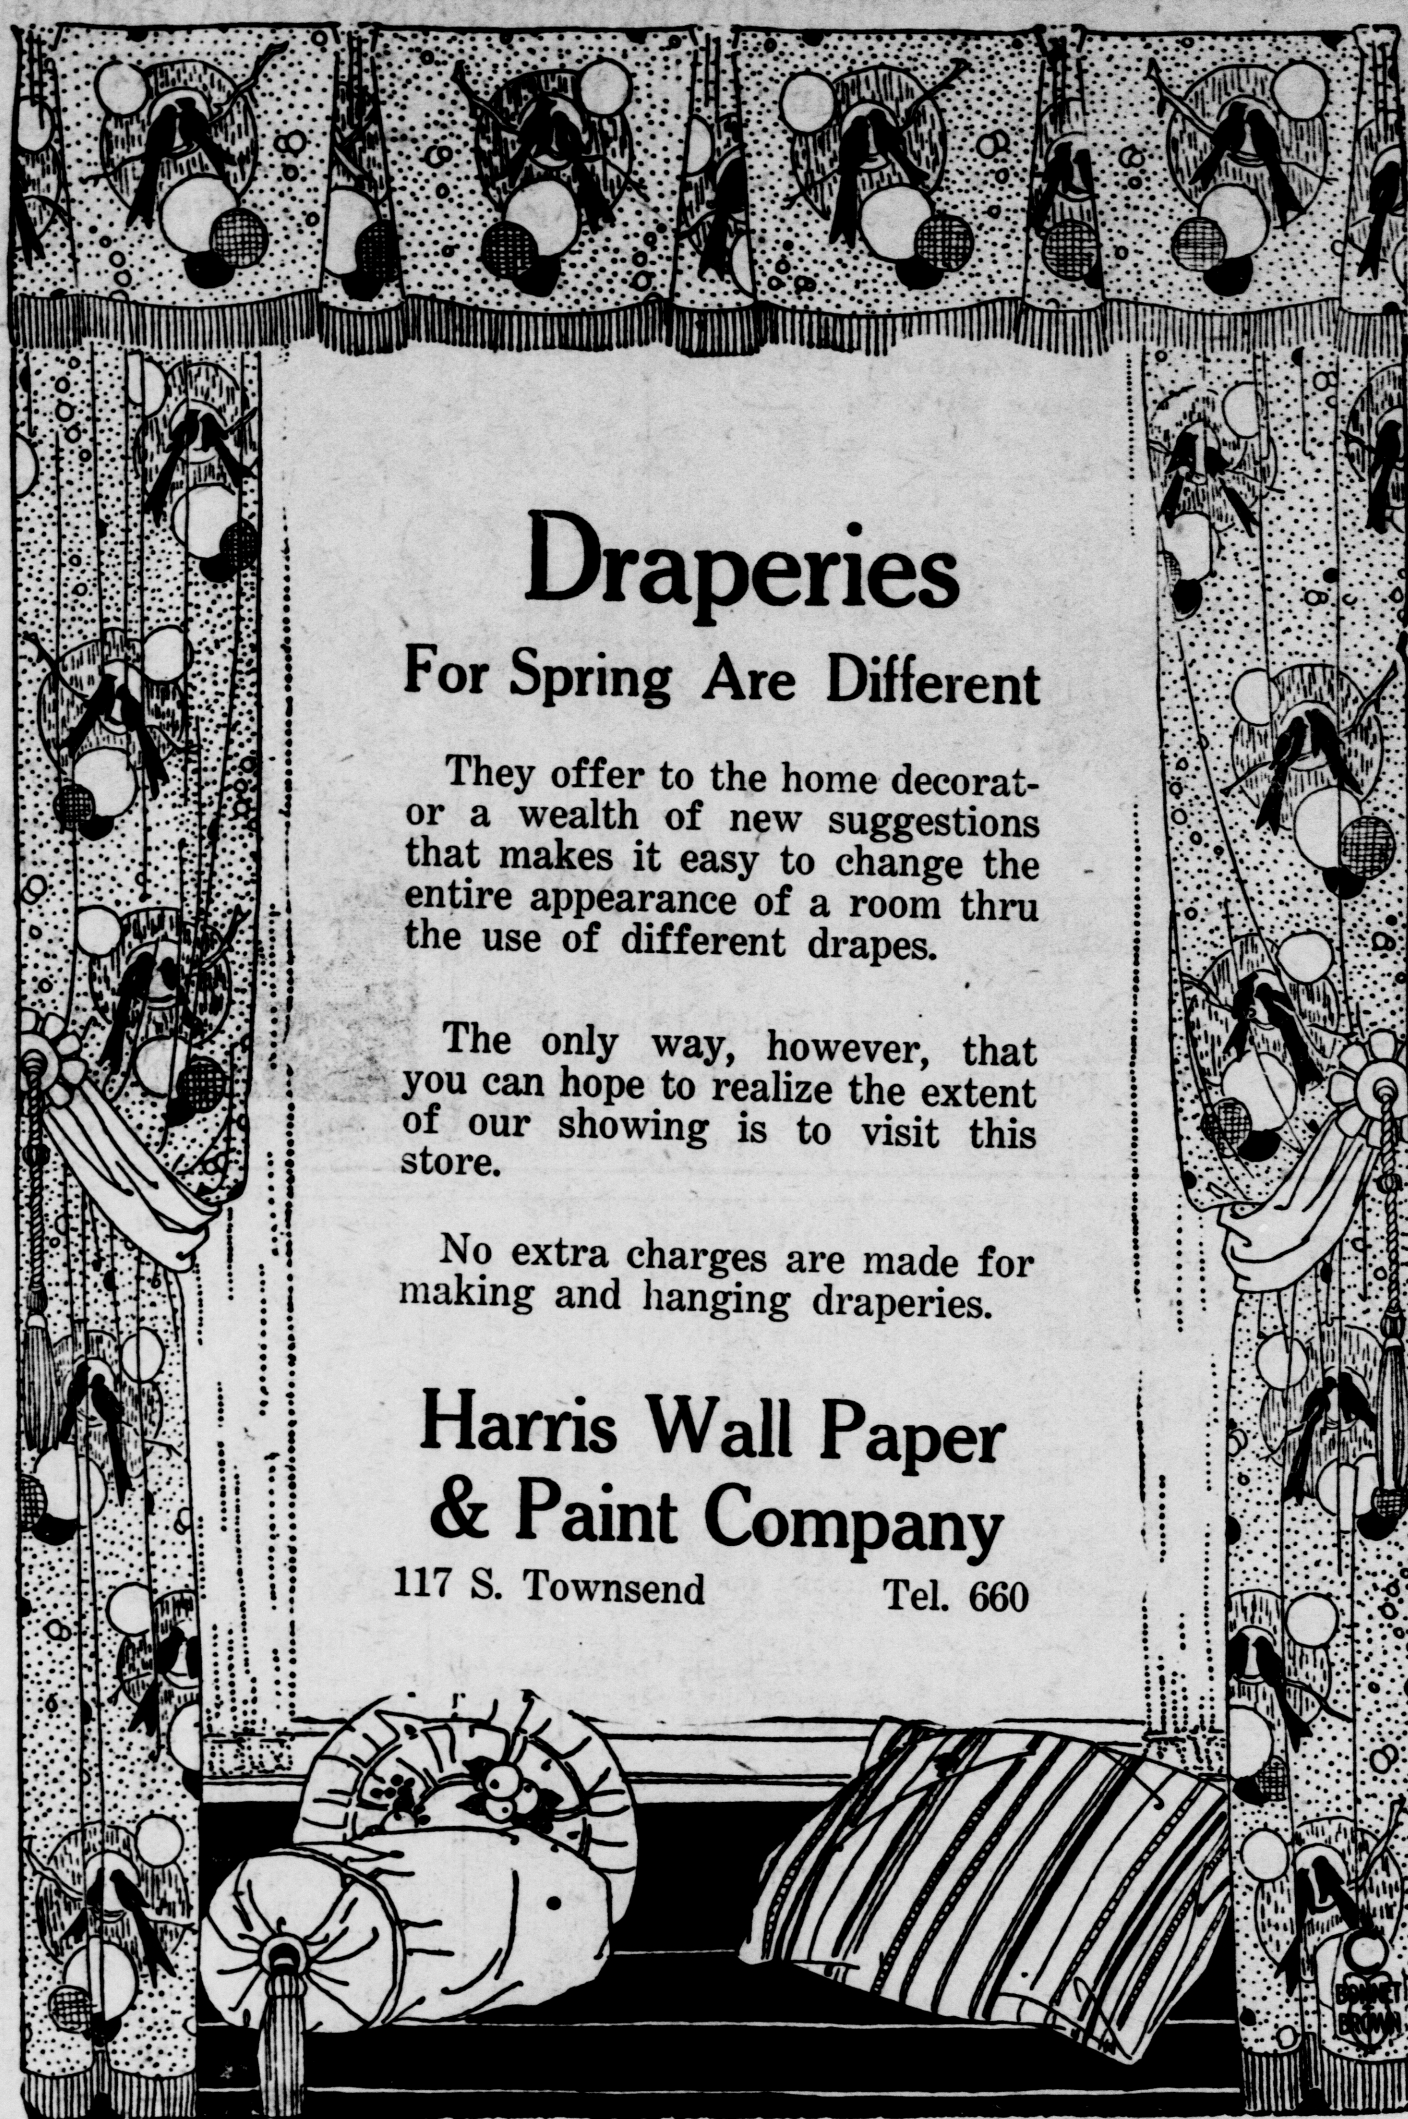

Customer—And do you recommend this canned beef? Grocery Clerk (just back from overseas)—Why, madam, I have eaten nothing else for the last two years.

#### The Biblical Scholar.

"Here," said the pious-looking jeweler, "is a watch I call 'Faith.'" "And why?" asked the curious customer.

#### Popular This Season.

Young Lady (with hopes)—"What do you think is the fashionable color for a hat?" Male Shop-Walker—"Tastes different. But I should prefer a white one."

## BRYAN COUNTY VOTES PERMANENT ROADS

DURANT, March 17.—(Special)—Complete returns from the bond election held yesterday in Bryan County show a vote for the bonds of more than eight to one. Only 433 votes were cast in opposition to the bonds, while the favorable vote was 3,956.

The amount of bonds voted was \$900,000, which is the limit for the county under the present valuation. This sum will be spent in building hard-surfaced roads in different parts of the county. Among the roads to be hard-surfaced is the Bankhead Highway, which runs entirely thru the center of the county from East to West. It is planned to have his work completed by the end of the present year.

### Some Pace in Laziness.

"If some people," snorted the young woman who had just lost a sale on a thimble because it couldn't be delivered that afternoon, "had a chance to buy Aladdin's lamp they'd want somebody from the store to go to their house an' rub it for 'em."

### For Colds, Catarrh or Influenza

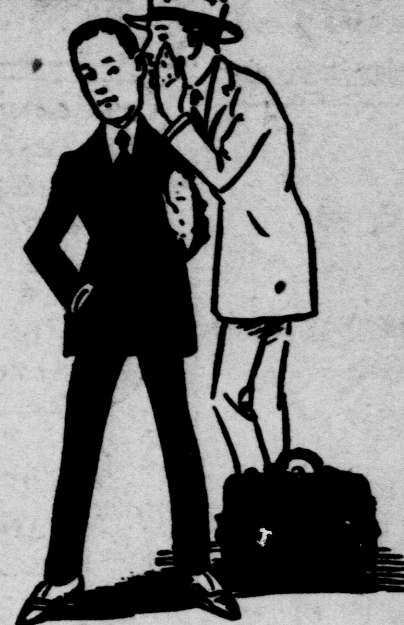

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and berries, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alterative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root—all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or whooping.

Catarrh should be treated, first, as a blood disease, with this alterative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy. Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.
